

Department of Business and Industrial Engineering

The Department of Business and Industrial Engineering at Offenburg University is consistently ranked among the top 10 business schools in Germany* focusing on applied sciences. In addition to 45 Bachelor and Master programmes in German, Offenburg University offers eight international Master programmes with a global reach conducted almost exclusively in English. Our Master's degrees have received several awards, e.g. as one of the top 10 international Master's degree programmes in Germany.

The Department offers six Bachelor programmes for more than 1.000 students providing a unique combination of the latest academic research, practical application and a broad variety of topics. Our Double-Degree with VIA University College in Denmark in Logistics and Trade provides additional opportunities to perform on the global job market.

Seven Master programmes guide you through management and entrepreneurial leadership to perform at the top of the industry. The Offenburg doctoral programmes in cooperation with our partner universities enable researchers to accelerate progress towards successful academic careers and well-paid leadership positions.

Offenburg Bachelor and Master degrees as well as our joint Doctoral programmes enable you to work with ambitious academics and practitioners discovering an experience that is truly transformational.
