

## Semester Abroad

Study abroad?

A semester abroad has various advantages: Improvement of language and soft skills, acquisition of expertise and intercultural competences, building up an international network and, of course, lots of fun.

If you want to spend a semester abroad, you can either study at one of our partner universities or as a freemover at every foreign university.

A [semester at a partner university](#) is organised by the International Office and usually does not cost any fees. Most students choose one of the 25 outstanding partner universities. Please find further information in our [database](#).

Staying abroad on individual basis, called freemover, you have the possibility to apply for an exchange semester at every university in the world. In this case, you have to organise the semester abroad of your own, but do not hesitate to accept the challenge. You grow with your challenges!

Additionally, you can find experience reports in [Moodle](#).

### Jochen Ziegler, Bachelor Student Logistics and Commerce

*„Looking back at my semester abroad, Ireland and the Dublin Business School were a real lucky find. I would never have thought that Ireland and Dublin fascinate me so much. Lifestyle, people and landscape – everything is harmoniously and socially. Right from the beginning you feel comfortable in Ireland.“*
