

Course of study

The study program covers seven semesters and is divided in two parts.

The **first study part** (1st and 2nd semester) focusses on basic knowledge of business administration.

During the **second study part**, further knowledge of business administration is taught. Moreover, the areas of logistics and commerce are covered intensively in theoretical and practical courses. The study program permits the student to either study more inter disciplinary or individually focused on one of the subjects.

The 5th semester consists of an **internship** in the production or service industry of their choice. It can be done national or international.

The **bachelor thesis** is part of the 7th semester.

After passing all exams the degree **Bachelor of Arts (B.A.)** is granted.
