

## Double Degree

International experience is especially important in the fields of logistics and commerce. This was the main trigger to set up a double degree program between our study program business "Administration/logistics and commerce" and the study program "Value chain management" at VIA University College Aarhus/Horsens.

VIA University College is a international and modern oriented university.

### **Arts in Business administration/logistics and commerce Value chain Management**

Following advantages:

possibility to get an in-depth knowledge in production logistics
